ABSTRACT

In this project creating a real time chat system with Node.js. The chat permits users to create private chat rooms that they can share with a friend. By building this project we can learn more about the cloud and its work.

CONTENTS

ABSTRACT

1. INTRODUCTION

1.1 OBJECTIVE

2. SYSTEM REQUIRMENTS

2.1 SOFTWARE REQUIRMENTS

2.2 HARDWARE REQUIRMENTS

3. APPENDICES

3.1 SOURCE CODE

3.2 SCREENSHORTS

4. CONCLUSSION

5. REFERENCE

1. INTRODUCTION

This project is to build a functional real-time messaging application for developers by using modern web technologies. Unlike most chat applications available in the market, this one will focus on developers and will attempt to boost their productivity. Although we are not expecting it to have a plethora of utilities due to the limited time frame, sharing code and watching a repository will be our core features. It will be fully open-source.

1.1.OBJECTIVE

- Communication: To develop an instant messaging solution to enable users to seamlessly communicate with each other.
- User friendliness: The projects should be very easy to use enabling even a novice person to use it.

2. SYSTEM REQUIRMENTS

2.1 SOFTWARE REQUIRMENTS

3	Operating System	:	Windows 10
4	Front End	:	HTML, CSS, JavaScript, Ajax
5	Back End	:	Node js, Mongo DB
6	Code Editor	:	Notepad++, Visual Studio Code
7	Software	:	NPM Installer
8	Browser	:	Google Chrome

2.2 HARDWARE REQUIRMENTS

3	RAM	:	4 GB
4	Processor	:	1GHz or more
5	Hard Drive	:	1 TB hard disk
6	Network Connectivity	:	LAN or Wi-Fi

3. APPENDICES

3.1. SOURCE CODE

Config.js

```
var express = require('express');

module.exports = function(app, io){

  // Set .html as the default template extension
  app.set('view engine', 'html');

  // Initialize the ejs template engine
  app.engine('html', require('ejs').renderFile);

  // Tell express where it can find the templates
  app.set('views', __dirname + '/views');

  // Make the files in the public folder available to the world
  app.use(express.static(__dirname + '/public'));

};
```

3.1 SCREENSHOTS

4. CONCLUSION

This project is used for chatting purpose. This application is capable of communicating with two or more persons.
